Mike's Happy, But A 'Little Lonesome'

ELECTION BET WINNER Ernie Coutney, town barber in Lac la Biche, gets a ride in a wheelbarrow from Nick Chodin, school teacher. Probably the only constituency in the province where the wager was a bumpy ride down local streets to the winner. So nick, who supported losing candidate E. J. Woynarowich, Social Credit, had to wheel Ernie, who supported victorious candidate Michael Maccagno, Liberal—Photo by Len Chow.

Olga Bakay, Former Lac La Biche Graduate, Receives B.Sc. Degree

Miss Olga Bakay, youngest daughter of Mr. and Mrs. M. Bakay of Venice, raised and educated elementarily in this district, received a Bachelor of Science degree at the Convocation ceremonies in May held at the Jubilee auditorium.

OLGA BAKAY

Miss Bakay graduated from Dr. Swift High School. Being too young to enter university immediately she worked for one year for the Imperial Bank at Lac la Biche, Edmonton and Jasper Park Lodge branches. Miss Bakay then enrolled at the University of Alberta when after four years of training at the school and University Hospital she received her RN diploma. She continued to further her education in order to specialize in teaching and supervision of nurses. Miss Bakay completed her five years of diligent study when she returned from Calgary last week where she was stationed for one month doing field work.

Now with her RN diploma and B Sc degree Miss Bakay is instructor of nurses in the specialized fields of pediatrics and psychology at the Medicine Hat Municipal Hospital. She started June 1.

At present she is visiting her parents at Venice.

Heavy Vote At Lac la Biche

Lac la Biche — An unusually heavy vote was recorded at the June 18 provincial election here, which saw Mike Maccagno, Liberal, returned to office for his second term. Out of some 900 names on the voter's list, 692 ballots were cast in the Lac la Biche Town poll. Of this number Maccagno, Liberal received 372; Woynarowich, Social Credit, 251, and Henry Thompson, Progressive Conservative 69.

At the time of going to press, with 41 of the 49 polls in the Lac la Biche constituency heard from, the standing is: Maccagno 1654, Woynarowich 1427, Thompson 385.

This win for the Liberal party makes Mr. Maccagno the only Liberal to gain a seat in the election.

Losing Lac La Biche Candidates Congratulate Alta.'s Lone Liberal

By MRS. F. CREIGHTON

Wheels of industry came to a standstill in Lac la Biche Friday afternoon, June 19, when the town turned out to fete the candidates who ran in the provincial election on the previous day.

It mattered not that the open limousine in which the dignitaries rode at the head of the parade was a bright red 1925 McLaughlin-Buick with the top removed; and the fact that the town band had less than an hour's notice, and had never practiced a step of marching in its short existence didn't embarrass the band or anyone else in the least.

The affair was organized on the spur of the moment by a few enthusiastic men of the town and as it was noised about it gained spontaneous interest and support which drew a crowd estimated as high as 1,000. School buses delayed their runs, shops were temporarily closed, streets were blocked off and extra police put on duty as the parade made its way from the Imperial Bank corner to the Northern Alberta Railways depot and back.

In the lead was the triumphal limousine carrying the successful Liberal candidate, Michael Maccagno, and the unsuccessful aspirants, E. J. Woynarowich, Social Credit, and Henry Thompson, Progressive Conservative. Close behind came Nick Chodin, local school teacher, the loser in an election wager, pushing Ernie Coutney, local barber and winner of the wager, in a borrowed wheel barrow. Eight members of the town band followed playing a lively march. The procession paused at the square by the N.A.R. depot and short speeches were given by the election candidates.

Mr. Henry Thompson, Progressive Conservative candidate thanked his supporters for their untiring efforts on his behalf and congratulated Mr. Maccagno on his success.

Mr. E. J. Woynarowich Social Credit candidate also thanked those who assisted him in the campaign and paid tribute to his opponents for the clean way the contest had been conducted. He offered his support to "Mike" now that he will again represent the constituency.

Mr. Maccagno thanked the people for electing him to represent them in the Provincial Legislature for another term, saying that he felt proud and yet humble at this time, and also a little lonesome in view of the fact that he was now the only one on the Liberal side. "But," he said, "We in Lac la Biche like to be different." However he wanted the people to know that he is on the side of Lac la Biche, and he was sure that with the promise of support of his opponents in the campaign, great things were in store for Lac la Biche.

The whole affair was conducted in a friendly attitude of goodwill, running over with a spirit of civic consciousness and pride, and good sportsmanship. Quoting Mike Maccagno, "It was the best parade ever staged in Lac la Biche.

HON. ERNEST C. MANNING, premier of Alberta, said he was "deeply moved by the tremendous endorsation" of the Social Credit administration given by the people of Alberta last week when 61 Social Credit candidates and one independent Socred were elected out of 65 seats. Mr. Manning, representative for Strathcona East, was among nine Edmonton candidates elected, making it the first time in the history of the province that the capital city has been without an opposition representative in the legislature. In the 1955 election with seven members to be chosen, Edmonton returned only three Socreds. The premier said the drop in strength of the opposition will impose "a new set of circumstances on the government during sessions of the legislature" which will open next February. "We must," he said, "see that every detail is attended to, and we'll have to make our own house program vital and active, rather than relying on the opposition to do it."

Hylo Students View Pictures

HYLO — Three films from the National Film Board were shown June 19 in the Hylo School. "The Sceptre and the Mace" portrayed the arrival of Queen Elizabeth II and the Duke on the opening of parliament in Ottawa.

Another on "Poison" showed that if a child drinks kerosene it may be fatal. Sleeping pills should be kept out of children's reach, as well as many other items which are considered non-poisonous, but which can do much harm if an overdose is taken. Guarding a child well saves many regrets later.

The third film was on teen-agers, entitled "Choosing a Leader." It concerned problems of decision and indecision.

Bank Of Montreal's Business Review Says Farming Outlook Is "Uncertain"

MONTREAL—The outlook for Canadian farmers is even more uncertain at the start of the current growing season than in previous years, according to the Bank of Montreal's Business Review for May, just issued. Not only do they face the ever-present uncertainties of market and climate, the review says, but also significant changes in the government's farming "ground rules."

The world wheat surplus continues as a "particularly intractable problem", and this year mounting stocks of certain Canadian livestock and dairy products have emerged to complicate the outlook further, the bank says.

"In addition," the review continues, "the federal government has lowered some of its support prices and in doing so has endeavored to reshape its price support policy so that the benefits will accrue mainly to the small farmer."

NO WHEAT SUPPORT

Discussing the wheat situation in detail, the B of M believes the present picture in Canada is not a discouraging one despite the government decision against wheat deficiency payments sought by Western farmers. "At August 1, 1958, the beginning of the current crop year, the carryover was 612 million bushels, some 118 million less than a year earlier. Last fall's crop of 369 million bushels, only slightly less than a year earlier, brought total available supplies to 980 million bushels, a decline of 11 per cent from the preceding year."

LIVESTOCK PICTURE CHANGING

In livestock, mass contract buying by meat-packing firms and feed companies, and the increase of large-scale commercial enterprises have tended to work against the main objective of the government's farm price policy—that of stabilizing small farmers' incomes the B of M continues.

The review adds that Ottawa hopes to resolve this current price dilemma by altering its methods of support, changes which ultimately will affect hogs and eggs.

INFLUENCE PATTERN

"In the case of the various dairy products, respective support prices influence the pattern of milk utilization, as clearly demonstrated last year," the bank says.

Creamery butter output during 1918 as a whole reached a record 337 million pounds, 34 million pounds more than in 1957, and in the face of a continued decline in domestic consumption, storage stocks at January 1, 1959, reached 94 million pounds, 34 per cent greater than a year earlier.

Similarly, support prices for dry skimmed milk generated a rise in production last year to 186 million pounds, versus 120 million pounds in 1957. But these support prices were not fully operative because the Stabilization Board last year placed a quota on amounts it would buy, an effort to stem the rapid pile-up of surpluses, the review says.

Thus cheddar cheese output last year, at 87 million pounds, was nine per cent less than in 1957, reflecting in part the diversion of milk into relatively higher priced dairy products, the bank says.

How agriculture as a whole will fare this year cannot be forecast at this time, the B of M says. "But," the May review concludes, "it is altogether likely that, by the time the harvests are in and livestock is quartered for the winter, some further interesting changes will have ocurred in the agricultural scene."

Good health should not be a luxury, and it might not be if adults see that children receive proper training and treatment.

To enrol at a School of Agriculture a student must be at least 16 years of age and have a grade nine education. The regular term is from the end of October to the beginning of April. Scholarships are available to farm boys and girls. Anyone planning to attend a School of Agriculture is urged to apply for various scholarships and bursaries if they meet the qualifications. The application forms are available from the District Agriculturist or from the District Home Economist.

Alberta District News In Brief

COUNTY OF THORHILD

Big Demand By Ratepayers For Use Of New County Grass Seeder

THORHILD — The County Agricultural Service Board met June 4, with the following present: Steve R. Pundyk, Steve Shwetz, Farmer members Fred C. Boulton and Steve Salyzyn, District Agriculturist Fred Strashok and Field Supervisor Peter Macyk and Secretary John L. Wynnychuk.

Several inquiries were made by farmers about grass supplied for backsloped roads and fences moved back 125 feet from the centre of the road. It was decided to sell grass seed at half the price up to five acres per half mile.

There has been a great demand for the County Grass Seeder for use on private lands. The County will rent the Gerber Seeder to ratepayers at a rate of $2.00 per day. A deposit of $5.00 will have to be paid to insure proper care of machine.

The 1080 program was discussed. The Field Supervisor stated that all of the bait was consumed and the setting of poison should be considered for 1959-60.

It will be recommended to the Council to purchase an Argus C-3 Camera with light meter costing approximately $100.00. The Service Board members feel this will prove invaluable.

The 1959 Chemical Price list was presented by the Field Supervisor. An increase in price was noted, and it was decided to not handle AAMD Chemical. It is recommended to Council that we discontinue handling weed chemicals.

The following were hired as weed inspectors:

1. John Rosenburger, Mapova, Alta.
2. Marion Dukewich, Newbrook, Alta.
3. Chester Jacknisky, Thorhild, Alta.
4. Morris Yurkiew, Radway, Alberta.

A donation of soil sterilants towards any Benevolent Organizations was discussed and the board felt that this policy is not to be practiced.

A plan of tours was discussed, and it was felt that one should be held for farmers to tour plots, tree plantings, and other items of interest in late July or early August.

The Board adjourned until June 30th when members will tour the MD of Flagstaff to get information on rats and weeds such as Hoary Cress and Leafy Spurge.

ABUNDANT LIFE

by ORAL ROBERTS

"WE DARED NOT TURN LOOSE!"

"We hung on for dear life as the waves pitched us to and fro on the blinker buoy," the woman said in telling of a terrifying experience that she and her family had just gone through.

"We dared not turn loose with our right hands for fear we would drop our babies into the sea; we dared not turn loose with our left hands for fear we ourselves would slip beneath the waves. If that had happened, our babies would have gone down with my husband and me."

She related how she, her husband and two small children had been out on a pleasant, afternoon boating trip when, suddenly, a savage squall moved in upon them. The storm quickly caused high waves, and the strong winds damaged the steering mechanism of their boat.

Drifting helplessly in the heavy seas—within sight of land itself—the boat was dashed into a floating blinker buoy. Acting quickly, the mother and father scrambled onto the buoy, each holding a small child. Then their boat sank beneath the water and they were left marooned on the buoy.

"We clung to the buoy for two nights and three days before help came," the woman said. "We were cold and wet. The children were hungry. We were all afraid. But all during those long, agonizing hours we never gave up hope. We prayed to God to deliver us. We asked Him to send us a rescue boat."

She told how she and her husband watched helplessly as many boats, out looking for stranded small craft after the storm, passed close by the buoy.

"I admit that I thought we might be doomed," she said. "But something told me that God would deliver us. So I never let up in my constant prayers to God to send help. And it came." The entire family was whisked to shore and to safety by a tugboat captain who later said:

"Something told me to check that buoy, although its light did not need servicing for another month. I am certainly glad I did, for we saved four lives."

The mother possessed faith in abundance. Her faith brought her family through because she put her entire trust in God! True, she admits, the family was afraid. But she said, "Something told me that God would deliver us."

Do you have such a strong faith . . . a faith that will enable you to keep from "turning loose" in your hour of trial?

We know that nothing is too difficult for God. If we believe in Him and trust Him, He will see us through!
